

Application Development

NWN Corporation's Application Development professionals help enterprise clients strengthen their business agility so they can thrive while others just survive. From the NWN AppDev Center of Excellence in Greenville, SC, we use our experience, capabilities, software and methodology to deliver client solutions on time and in budget.

NWN AppDev team can help overcome:

- Organizational silos with individual missions, workforces and decision making.
- Disconnected technology systems that prevent collaboration and effective decision making.
- Large investments of dollars and time in existing technologies.

Once these challenges are solved, an organization will be positioned to focus on its true business imperatives and to demonstrate the agility that will enable it to fulfill its mission

Results for NWN AppDev clients include:

- Increased operational efficiencies
- Decreased operational costs
- Increased market share or reach
- Increased revenue
- Increased collaboration within the enterprise and with business partners
- Improved satisfaction from the customer
- A strategic and competitive advantage
- Fulfillment of the enterprise mission

Clients include:

- Offices of the Governor and Secretary of State
- Dept. of Health and Human Services
- Dept. of Revenue
- Dept. of Probation, Parole and Pardon Svcs.
- Employment Security Commission
- Dept. of Parks, Recreation and Tourism
- Dept. of Social Services
- Clemson University
- Technical College System
- Educational Television Network

Synopsis

Our clients depend on us to bring them creative solutions that enable them to become truly agile enterprises. Over the years we've created:

- Multi-enterprise solutions that transform independent business operations for multiple organizational silos into cross-enterprise collaborative operations.
- Enterprise Line-of-Business Solutions that solve mission-critical business challenges.
- Consultative engagements to address one or more stages of a client's strategic or operational projects.

These projects demonstrate the experience, capabilities, software and methodology of NWN Corporation's AppDev practice that lead to IT excellence.
