

Corporate Profile

NWN Corporation provides clients with a complete range of networking services and solutions. We bring our clients the premier products in the industry, tailored to their specific needs and situations. These include technologies from Cisco, Microsoft, HP, EMC, and many others.

Our clients include private and public sector organizations in almost every line of work. We provide solutions to major banks, universities, manufacturers, hospitals, and state and local government agencies. Our clients operate locally, nationally, and internationally.

The NWN approach is simple. We take the time to understand a client's needs, then use our deep technology expertise and broad experience to offer the best IT solutions. We don't just implement technologies for our clients — we take on day-to-day accountability for managing and maintaining them as well. As a result, we take an owner's perspective in everything we do.

Our solutions or technology pillars are:

Unified Communications. A Cisco Gold Partner, NWN is recognized as a specialist in the deployment of Cisco's Unified IP Communications solutions.

Enterprise Computing. NWN possesses the deep expertise to provide effective IT solutions for any computing environment leveraging technologies from leading manufacturers. With Gold Partner status from Cisco, Microsoft and HP, Platinum Partner status with Novell and Altiris, and premier relationships with other best-of-breed partners, NWN has the right solutions to meet client needs.

Data Storage and Business Continuity. NWN provides unparalleled data storage

and high-speed retrieval solutions from EMC and other product partners for growing applications such as email, database, and file/print systems as well as to support back-up planning and disaster recovery.

Information Security. NWN has deep expertise in designing and implementing integrated network security architectures across multiple platforms, with key partnerships including Cisco and Symantec.

Our service areas are:

Professional Services. NWN's professional services include assessments and planning; consulting and design; implementation; and project management. Structured for the needs of our customers, services can be delivered as a focused, single project or combined with our nCare™ services as a total lifecycle solution.

IT Staffing. We provide temporary staff or long-term contractors for supplemental staffing, special projects, for when a company isn't ready to commit to a permanent employee or when employees are on extended personal leave.

nCare™ Managed Services. NWN's nCare™ program supplements an IT organization with as much managed service as is needed — from remote network monitoring and on-site technology staff to project management and shadow CIO services.

For more information: An NWN Corporation Account Executive can provide additional information on all solutions and services. We have branches throughout the United States which can be seen on our website in the About Us, Locations section.
